

AHISH S M

SOFTWARE DEVELOPER | MERN STACK

+91 6374766056 — anuahish249@gmail.com — [Linkedin](#) — [GitHub](#) — [Portfolio](#)

Profile Summary

Motivated and detail-oriented B.Tech student specializing in Artificial Intelligence and Data Science with strong expertise in Full Stack Web Development (MERN Stack) and mobile application development using React Native (Expo CLI). Experienced in building scalable, responsive, and user-centric web and mobile applications using MongoDB, Express.js, React.js, Node.js, and React Native. Skilled in RESTful API development, frontend UI design, backend integration, and cross-platform app development. Passionate about solving real-world problems through efficient code and seeking an opportunity as a Software Developer Intern / Full Stack Developer.

Technical Skills

- **Programming Languages:** Python, JavaScript, SQL
- **Frontend Development:** HTML5, CSS3, JavaScript, React, React Native
- **Backend & APIs:** REST API Integration, jsonserver (mock backend), Node.js and Express.js
- **Tools & Platforms:** Git, GitHub, VS Code, Thunderclient, Figma, Expo CLI, Android Emulator

Projects

Mini E-Commerce Web Application (Tech Stack: MERN)

Livelihood : game-x-store.vercel.app/

Developed a full-stack e-commerce platform using MongoDB, Express.js, React.js, and Node.js. Implemented product listing, cart management, and order handling features. Integrated RESTful APIs and built a responsive user interface.

Escape Code Coding Event Platform (Tech Stack: MERN)

Livelihood : escape-code.vercel.app

Built a web platform for coding challenges with problem display and submission interface. Designed dynamic and interactive UI using React.js. Improved user experience through structured navigation.

Omni-Tech Symposium Website (Tech Stack: ReactJS)

Livelihood : omni-tech-tau.vercel.app

Developed a responsive website for the **Omni-Tech Symposium** organized by the **Artificial Intelligence & Data Science department**, featuring event details, technical competitions, and participant information with an intuitive and structured UI.

AI Chatbot for mental health support (Tech Stack: MERN)

Livelihood : health-support-chatbot.vercel.app

Developed a web-based **AI chatbot designed to provide mental health support**, enabling users to interact through a conversational interface for guidance and basic emotional assistance. Implemented interactive chat functionality using JavaScript and designed a clean, user-friendly interface for better accessibility and engagement.

Experience

Frontend Developer (Intern):

Aug 2024 – Aug 2025

Developed and maintained the company website using HTML, CSS, and JavaScript with a focus on responsive design. Built a cross-platform mobile application using React Native (Expo CLI) as a frontend developer. Enhanced UI/UX for better user experience and performance. Collaborated with team members to ensure smooth functionality and design consistency.

Future Interns Program:

Aug 2025 – Sept 2025

Developed three full-stack web applications using the MERN stack (MongoDB, Express.js, React.js, Node.js). Implemented RESTful APIs and ensured seamless frontend-backend integration. Designed responsive and scalable applications with optimized performance. Used Git and GitHub for version control and project management.

Education

Bachelor of Technology (B -Tech)

2023 – Present

Artificial Intelligence and Data Science

Suguna College of Engineering ,
Coimbatore.
